Study Objectives

The German-Czech study programme International Studies in Management (ISM), Business Administration (BA) and Economics and Management (EM) prepare you to undertake professional activities with an international focus. You acquire specialized business expertise geared for the international market. Especially the acquisition of the Bachelor of Life Sciences at the Czech University of Life Sciences Prague increases the chances on the Czech labor market.

The programme’s practical orientation enables you to apply scientific methods in order to solve concrete problems. You also acquire skills in teamwork, communication, project management and presentation techniques. During your study semesters in Prague, our Students form a joint group with the Czech students, with whom they come to Bielefeld in the third year of study. We focus on your individual profile development and support you personally throughout your studies. You are being looked after and advised by an ISM-team consisting of a programme director and lecturers.

Career Options

Graduates of German-Czech Bachelor study programme are qualified to perform sophisticated management and specialist tasks in internationally operating companies and organizations. You are motivated, internationally experienced and have excellent communication skills. You will find your career opportunities in the fields of sales, marketing, finance and accounting, controlling, organization and data processing, personal, social and education services as well as auditing and tax accounting.

In the region around Bielefeld exist several companies with intensive economic relations with the Czech Republic. Economic relations between the Czech Republic and Germany are traditionally particularly intense. Germany is the largest foreign investor in the Czech Republic. For Germany, the Czech Republic is the second most important trading partner in Central and Eastern Europe after Poland. In turn, Germany is the most important foreign trade partner for the Czech Republic. Trade with Germany accounted for almost a third of the total foreign trade of the Czech Republic.
