Study Objectives

The German-Italian study programme International Studies in Management (ISM), Business and Economics (BE) prepare you to undertake professional activities with an international focus.

You acquire specialized business expertise geared for the international market. Especially the acquisition of the Bachelor degree at the University of Cagliari increases the chances on the Italian labor market. The programme’s practical orientation enables you to apply scientific methods in order to solve concrete problems. You also acquire skills in teamwork, communication, project management and presentation techniques. During the study semesters in Cagliari, our students form a joint group with the Italian students, with whom they come to Bielefeld in the third year of study. We focus on your individual profile development and support you personally throughout your studies. You are being looked after and advised by an ISM-team consisting of a programme director and lecturers.

Career Options

Graduates of German-Italian Bachelor Study Programme are qualified to perform sophisticated management and specialist tasks in internationally operating companies and organizations. You are motivated, internationally experienced and have excellent communication skills. You will find your career opportunities in the fields of sales, marketing, finance and accounting, controlling, organization and data processing, personal, social and education services as well as auditing and tax accounting.

Close to Bielefeld there exist several companies with intensive economic relations with Italy, which is regarded as one of the world’s most industrialized nations and a leading country in world trade and exports. It has the third largest economy in the Eurozone and the eighth largest in the world. It has a very high level of human development and is ranked sixth in the world for life expectancy. The country is well known for its creative and innovative business, a large and competitive agricultural sector (Italy is the world’s largest wine producer) and for its influential and high quality automobile, machinery, food, design and fashion industry.
